

# Jeppiaar Cements Private Limited

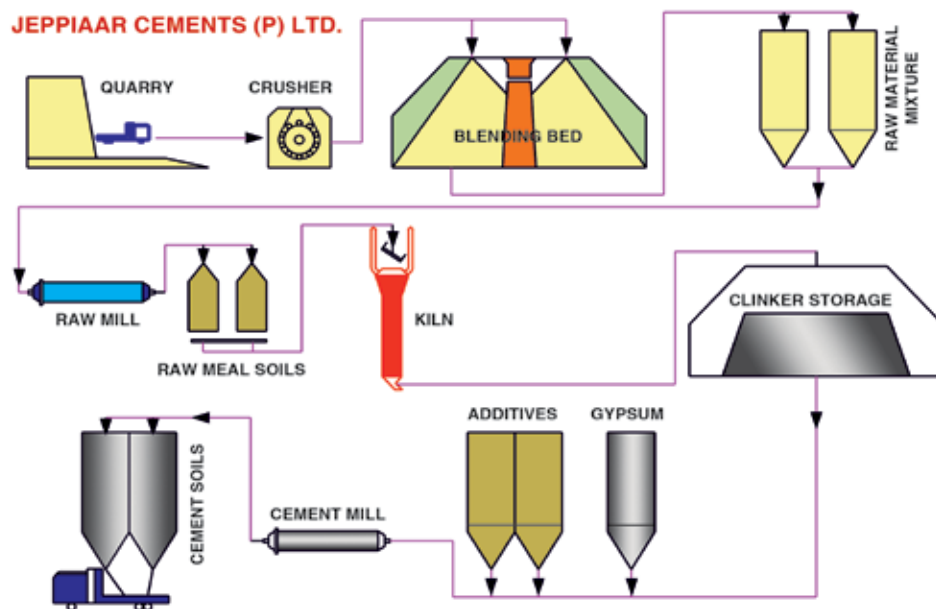

SUPREME QUALITY

## Profile & Products

**Jeppiaar Cements Pvt Ltd** was started in the year 1992 with an ambition to provide people the best quality cement at an affordable price. Our factory is embedded with the heritage and the vision of Colonel Dr. Jeppiaar, a pioneer in the education industry. An emphasis on traditional methodology fused with technical advancement makes our cement stand out in the heavily competitive cement market. We manufacture Ordinary Portland Cement (OPC) and Portland Pozzolana Cement (PPC), all marketed under the renowned Jeppiaar Cement brand name. We have invested in strengthening our product lines and in introducing key quality measures and services, in order to establish and maintain the Jeppiaar Cement brand as one of the most premium brands available in the market.

### JEPPIAAR CEMENTS (P) LTD.

## Our Clientele

We take pride in our brand's strong and visible connection with the society. Our outreach and work have carved a niche in some of the most prominent construction projects in Chennai, such as the Sathyabama University, Panimalar college, St. Joseph's College, Government Projects, Churches and the Harbour in Muttom near Nagercoil.

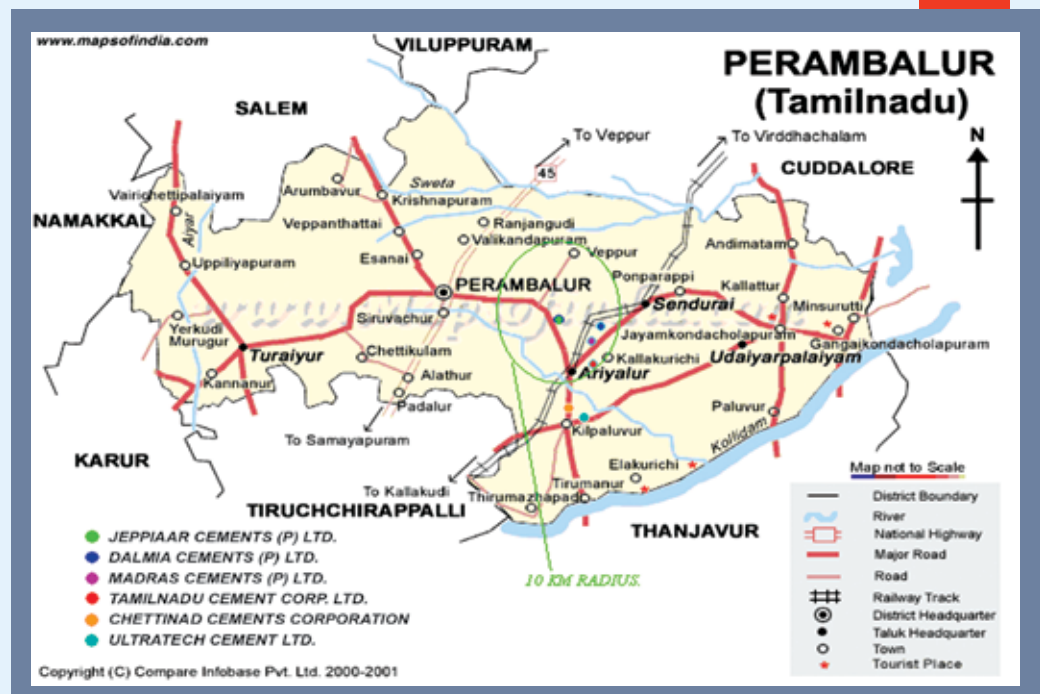

Jeppiaar Cement enjoys a prominent market presence in the southern region of Tamil Nadu as well. The brand has worked hard to earn its clientele's respect and trust through years of strong relations and closely monitored cement manufacturing process. This ensures nothing but quality products reach our customers.

**Jeppiaar Cements** is situated at Thittakudi Road, Near Marudaiyan kovil, Keelamathur village, Alathur Taluk, Perambalur District. The site is about 5 Km from ariyalur railway station, 70 km from Trichy and 22 km from Perambalur - Chennai high way. The factory site lies on the western side of Ariyalur - Thittakudi road.

Our major mining land is spread over 156 acres and has an unflinching procurement capacity for decades to come. It is situated at Panangoor Village in Ariyalur District. Limestone from our mine is procured with the help of our factory owned vehicles. Salt Pan Gypsum is brought in directly from the salt fields in tuticorin.

Location

Eco - Friendly Factory.

Why we are better

We procure limestone from **ARIYALUR.**

It has one of the best quality Limestone in the entire country.

We have never failed the BIS Certification of our product till date.

Even people in the Ariyalur locality prefer Jeppiaar cement over any other cement from the same cluster. This allows us to do gate sales of 2000 tonnes every month.

Our packing parameters are precise and perfect. What we say is what you get.

We have won the best mining award for three years consecutively for our efficient, cost effective and eco friendly way of mining.
